

Food that arrives in the condition it left in.

Food distribution and agro-processing from Harare — dairy, frozen vegetables, fish and seafood, groundnuts and peanut butter.

Introduction

We keep the food industry supplied, and we add value to what we sell.

Nespher Investments is an emerging food distribution and agro-processing company based in Harare, Zimbabwe. The company ensures the availability of premium dairy products, frozen vegetables and packaging solutions to meet the diverse needs of the food industry. Nespher is also actively involved in groundnut sourcing and peanut butter manufacturing, which strengthens our role in the food value chain.

Established with a commitment to excellence, the company focuses on the distribution and value addition of a wide range of food products: dairy items such as cheese and ice cream, frozen vegetarian foods and vegetables, groundnuts, peanut butter, and fish and seafood products.

That combination is the point. Distribution tells us what the market is short of; processing lets us do something about it.

Groundnuts are bought from Zimbabwean growers, then sorted, roasted and milled in-house.

How an order moves

Source, process, store, deliver.

- 1 Source**
Groundnuts bought directly from Zimbabwean growers. Dairy, frozen lines and seafood sourced from vetted regional and international suppliers.
- 2 Process**
Groundnuts are sorted, graded, roasted and milled into peanut butter, then filled into our own packs or yours.
- 3 Store**
Product is held in the band it belongs in – frozen at -18°C , chilled at $2-4^{\circ}\text{C}$, dry goods in ambient store.
- 4 Deliver**
Picked against your order and delivered to your store, depot or kitchen, still at temperature.

Vision

To be the leading distributor and agro-processing company of premium food products in Zimbabwe.

The most trusted partner in the food industry — known for reliability, quality and innovation.

Mission

To deliver fresh, high-quality food products.

While advancing local agro-processing, enhancing the value chain for our clients, and promoting sustainable and efficient food distribution.

Core values

Five commitments we are happy to be held to.

Quality

Only the finest products reach our customers. Product is checked on intake and again before it leaves the store.

Reliability

Consistent, timely service. An order confirmed is an order that arrives, at the temperature it left at.

Integrity

Honest, transparent business practice — on pricing, on grading, and on what we can and cannot supply.

Sustainability

Local sourcing and eco-friendly distribution. Buying groundnuts from Zimbabwean growers keeps value in the country.

Innovation

Continuous improvement to meet a changing market, in both our range and the way we move it.

The cold chain

Quality preserved is a temperature, not a slogan.

-18 °C

Frozen

Vegetables, ice cream, fish and seafood

2-4 °C

Chilled

Cheese and dairy

Ambient

Dry store

Peanut butter, groundnuts, packaging

Temperature bands are the standard conditions for these product classes and are confirmed per line at order.

Product range

Five divisions, three temperature bands.

Everything we carry belongs to one of three storage conditions. We organise the whole business around that, because it is the thing most likely to go wrong.

● Chilled 2–4 °C

Dairy

Cheese for retail shelves and catering kitchens, moved on a chilled chain from our store to yours.

Cheddar — mild and mature

Mozzarella, pizza-grade

Gouda

Processed slices

● Frozen –18 °C

Frozen vegetables

Individually quick-frozen vegetables and vegetarian lines, held at –18 °C the whole way through.

Garden peas

Mixed vegetables

Cut green beans

Sweetcorn, spinach, carrots

● Ambient dry store

Groundnuts & peanut butter

The part we make ourselves: groundnuts bought from Zimbabwean growers, sorted, roasted and milled into peanut butter.

Peanut butter — smooth and crunchy

Private label filling

Raw shelled groundnuts

Roasted groundnuts

● Frozen –18 °C

Fish & seafood

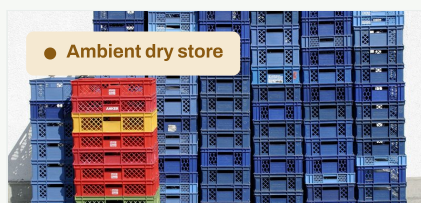

Sourced and distributed nationwide — whole fish, fillets, prawns and dried kapenta.

Whole fish, size-graded

Fillets and portions

Prawns, shell-on and peeled

Dried kapenta

● Ambient dry store

Packaging solutions

Cartons, tubs, lids and film supplied to food packers and processors alongside the product itself.

Corrugated cartons

Tubs and lids

Wrapping and barrier film

Sourced to specification

20 lines, organised by storage condition.

Pack format rather than price, because this is a trade list. Tell us the line, the format and the quantity and we will quote.

Line	Pack	Case	Notes & source
Frozen — -18 °C · 12 lines			
Ice cream tubs	2 L / 5 L tub	4 × 5 L	Vanilla, chocolate, strawberry and mixed. Local manufacture

Packaging solutions	Cartons, tubs, film	By specification	Cartons, tubs, lids and film for food packers. Sourced to order
Pack formats shown are indicative. Exact specification, grading and availability are confirmed on quotation.			

 Capabilities

Four things we do, plus the packaging that goes around it.

Agro-processing

The part of the business we own end to end.

Groundnuts are bought from Zimbabwean growers, sorted and graded before roasting, then milled to a smooth or crunchy grind and filled into retail jars, catering tubs or bulk pails. We fill under our own label and under yours.

Distribution

Harare-based, delivering nationwide. Orders are picked against your list and delivered to store, depot or kitchen. Wholesale and retail formats come out of the same store, so a supermarket group and a single restaurant can both be served without repacking.

Packaging solutions

Corrugated cartons, tubs and lids, and wrapping and barrier film, sourced to your specification — on the same schedule as the product itself.

Grain sorted and graded by hand before milling.

Sourcing

Local where it makes sense, imported where it has to be. Groundnuts and some vegetable lines come from Zimbabwean growers. Cheese, certain frozen lines and seafood are sourced regionally and internationally from vetted suppliers, and graded on intake before entering our store.

Buying groundnuts off Zimbabwean farms keeps the value of the crop in the country.

 Who we supply

Retail shelves, catering kitchens, and the factories in between.

Supermarkets & retail

Retail-ready packs, shelf-life managed, delivered to store or DC.

Wholesalers & distributors

Case and bulk quantities for onward distribution.

Hotels, restaurants & catering

Catering formats and standing weekly orders.

Food manufacturers

Ingredient-grade volumes, plus the packaging to pack them in.

Institutions

Schools, hospitals and mines — scheduled bulk supply.

Private label

Peanut butter filled and labelled under your own brand.

5

Product divisions, from cheese to packaging

 In closing

Health, satisfaction and reliability — in that order.

At Nespher Investments we are dedicated to providing exceptional service and ensuring that our clients receive high-quality food products that promote health, satisfaction and reliability. Through our integrated approach to sourcing, distribution and agro-processing, we continue to contribute to the growth and sustainability of the food industry in Zimbabwe.
